FAMILY CARE PLANS TAKE CENTER STAGE

New Marine Corps Order outlines providing care for those who depend on you!

What is a Family Care Plan?

A Family Care Plan is a document that provides guidance for people who will provide care for a Marine's family members in his or her absence.

Who is Required to Have One? Any Marine with a Dependant When Should it be Submitted?

- *Active Duty (AD) Marines have 60 days (from the date of Change in family status to notify their command of the need to create a Family Care Plan.*
- *Reserve Component (RC) Marines must notify their command within 90 days after a change in family status.*

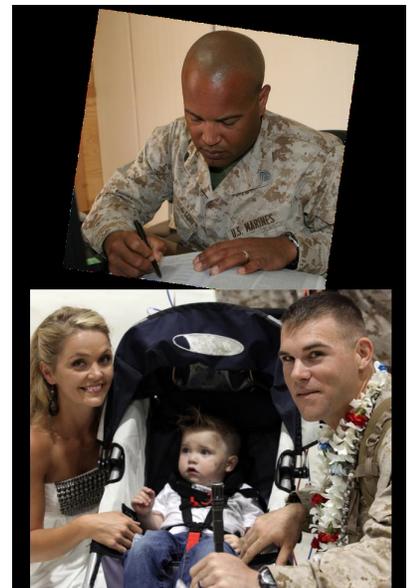

When Should it be Updated?

Keep your plan current! Review and update your plan annually, or whenever a major family change occurs. For example, you may need to revise your Family Care Plan because of:

- *Divorce*
- *The death of a family member*
- *Relocation*
- *A child custody decision that involves long-term visitation*
- *Adoption*
- *Extended absence of a spouse*
- *Birth of a child*

A Family Care Plan is the responsibility of Marines who have dependants, and will facilitate the care and support of dependant family members and enhance unit and family readiness during planned and unplanned contingencies.

Navy Reserve 97th Birthday on 3 March 2012

"The Navy Reserve was officially formed March 3, 1915 - just as the United States was emerging as a world power and just following the outbreak of World War I. But the concept of the American Citizen Sailor actually precedes America itself. Even before the Continental Congress established the Continental Navy, there were bands of residents in seaside towns engaging in combat with British warships - inspired by the spirited battles of Minutemen".

"Response to events such as the ethnic cleansing of the former Yugoslavia and the attacks against the World Trade Center and Pentagon on September 11, 2001, illustrated the transformation of the Navy Reserve from a force in waiting for massive mobilization to an integral component in carrying out the mission of the U.S. Navy. Today, with approximately 20 percent of the Navy Total Force made up of Navy Reservists, the role and contributions of the Navy Reserve and its men and women are as vital as ever, on all fronts - from conflict prevention to conflict support, from combat to peacekeeping, from disaster response to humanitarian relief".

MLK one-pitch softball tournament

NSA Bahrain MWR hosted a MLK one-pitch softball tournament at Memorial Field on Saturday, January 14, 2012. MARCENT FWD fielded two teams for the one day tournament; LtCol Hundley coached the MARINES and GySgt Brandon coached the HONEY BADGERS. At the end of the day, the MARINES squared off against NAVCENT for the championship game. Unfortunately, the MARINES came up short against the powerhouse NAVCENT team, a softball season rival of team MARINES. The MARINES placed second (runner-up) in the tournament. Everyone enjoyed the day of competition and shared some camaraderie. Both MARCENT FWD teams are looking forward to the upcoming 2012 NSA Bahrain Winter Softball League.

Bahrain Road Runner's Marathon Relay

A big congratulations to all the Marines who participated in the Bahrain Road Runner's Marathon Relay. We continued a tradition in MARCENT (FWD) by having seven teams (same as last year) run in the race and winning two trophies (as we did last year). The team of LtCol Perdew, MSgt Nuncio, Capt King, and Capt Grant were the overall winners, but our women's team had an amazing second place overall finish. The team of Capt Gaskin, GySgt Sonnabend, Ms. Helvey, and Sgt Souza held on to beat all other teams in the competition. Great job ladies! Thank you to all the runners who came out and making it a memorable experience.

Wounded warrior Cpl Michael Nicholson returns home to huge Tampa welcome

On July 6, 2011, south Tampa native, Corporal Michael Nicholson USMC was on combat patrol in Afghanistan when his unit was attacked and a remotely detonated IED was triggered. Cpl Nicholson sustained severe injuries including the loss of both legs and his left arm. Cpl Nicholson was flown to Germany the following day and once stabilized, was flown to Bethesda Naval Hospital where today, he continues his rehabilitation.

Nicholson arrived Sunday, February 19th in Tampa for the first time since being wounded, flying in with his family for a month-long leave from therapy. At the airport, strangers lingered as long as they could before their flights, curious about the color guard and bagpipes.
